TRANSLATION OF AESIDECAR LETTER TO SR/10 LATVIA

Denver 29 December 1962

Dear C

First of all I want to send you many thanks for the money order and the nice Christmas card. At present I am on my Christmas vacation, but in spite of this, I am working with my track boys who remain in Denver. For the most part all the track boys have gone home. During the period 4 - 12 December, I was in Los Angeles as a judge for the Pan-American Marathon team selection, and visited the Orange State College and was somewhat disappointed. It had been promised that I could have the job, but possibly first only in 1964, when the athletic programs will first begin. The money is all being used for construction and for development purposes. Therefore, I am now on the outlook for another job in California for next year. I think there is hardly any possibil-Track here will be placed on an ity to remain here at Denver University. intramural basis. I have also written to the governor of Alaska inquiring about job possibilities. (See the attachment to this letter.) My son Juris is at the present time in Los Angeles and had discussions in two or three places concerning a job as a chemical engineer. In Los Angeles, I spoke with Mrs. Austra ANDERSONS, and she had arranged that I send the film from Pasedena Sierra Madre post office airmail, but she could not remember the address. nately I have not yet written to Mr. TREKNAIS (ox thing like that) but I will do so in the following days. Finally here in Denver I discovered how to learn about the Estonians. A Latvian had married an Estonian girl. I know the man very well, and also to some extent his wife. I believe that would be the best way. Now you surely must write to me. You want to have all the Estonians from Denver or only special people? You know that I already have many friends who work in this space research field. A while ago there were two Russians here in the United States who have wriften a book concerning rockets. book has now been translated into English by a Latvian. Several thousand dollars were deposited in a bank for the rights to translate this book. the time of their trip in the United States, both Russians withdrew the money which had been deposited and purchased many things, and lived very well. They told many jokes concerning life in Russia. For example: "When STALIN was removed from his grave, they didn't know what to do with the body. Mr. MIKOYAN said to KRUSHCHEV, "Very simple. Sell it to the capitalists." KRUSHCHEV gave the okay and MIKOYAN immediately began to negotiate and to sell STALIN's old

body for some good money, but when KRUSHCHEV learned that the business transactions were being made with Israel, he said 'no'. KRUSHCHEV indicated that it was not possible to send the body to Israel, since as far as he remembered, somebody many, many years ago, in the old days, had been resurrected from the grave. (H meant, of course, Christ. Ha, Ha, Ha.)" I have also read the book Daugavas Vanagi, as well as also the little book concerning the Latvian priest (minister). It appears to me that the comrades have forgotten nothing and that those who in any manner fought against the Red bandits have suddenly become murderers.

The only Christmas card that I received from Riga was from F. BERNSONS. He asked why I did not write, and I'm sure that the envelope had been opened by the censor, but then sealed again. Shall I answer him in some way? A few weeks ago a man, a certain Mr. BENNETT, from Fred WILT's family here in Denver, looked me up in my office in the University and in some detail asked questions concerning the experiences with Mr. K. They knew all that had happened, since they were wide-awake and had observed everything. The last night they were very close to myself and to Maris. They only said that other groups of Russians from the Soviet embassy had come to Denver, how long they stayed, and again flew back to Washington, D.C. During these discussions I was only a private citizen and as such I conducted myself and as such have I given my answers. Mr. George B. was not at all disturbed. How has the situation with Mr. K. turned out in New York City? Has there been nothing published since the return to Riga?

With best wishes,

(signed) Your Ed

P.S. Have you any possibility to tell Governor EAGAN that I am the man for
